

## Catton and Spixworth District

### Senior Section C-2-C Challenge 2010

The Challenge was to see the sunrise at Ness Point and the setting of the sun at Hunstanton by as many different forms of transport.

Friday 18<sup>th</sup> June we arrived at Lowestoft. We stayed in a local church hall, everyone was buzzing with excitement and it took a while for us to settle! About 11.30pm the girls were quiet and we began to fall asleep. However it felt like only five minutes as we were then woken at 3.30am to go to Ness Point, watch the sun rise and cook our bacon breakfast. It was dark, cold and wet, yet there was little complaint. By 7.30am we were all back in the hall, ready to leave on our adventure.

We were in a group of four girls, and we made a good team. We got a coach from Lowestoft to Norwich, then a bus to East Runton, where we met a Mum, who drove us around that village with our Centenary duck to get as many pictures of different modes of transport, this included a tractor, fire engine and ice cream van which we ran after! From East Runton we drove to Cromer, where we picked up the coast hopper and set off to Hunstanton.

Saturday evening we met the other groups and leaders then went to the Hunstanton Sea life Centre and had fish and chips in the centre.

Shortly after watching the sunset we got our beds ready for the night. Everybody was excited about sleeping in the shark tunnel. We all found sleeping below the fish relaxing even though there were sharks all around us!

Before we knew it morning had arrived and we were up and ready to make breakfast outside. It was extremely windy and wet but this didn't dampen our spirits and we enjoyed our eggy bread. Once we'd finished breakfast we were glad to get inside again and had an opportunity to explore the Sea life Centre. At the end of the day the winning team was awarded the pigeon trophy.

We both thoroughly enjoyed this experience and would love to do something similar again, hopefully with better weather!

Katie Speck and Abby Thompson both aged 14
